AMERICAN COIN SCALE.

TO COLLECTORS.

THE Coins and Medals described in the following pages are the properties of several American Collectors. They have been placed in my hands for absolute sale to the highest bidder, and, with the single exception of the rare Stater of Actolia, on which an upset price of $60.00 has been placed by the owner, all will be sold without any reserve whatsoever. While no claim of extraordinary merit is made for this catalogue, the collector who will take the trouble to scan its contents, will find therein described a number of American and Foreign Coins and Medals of decided interest and importance.

A mistake often made by collectors is to ignore small, bona-fide, and legitimate sales, like the present one, and to concentrate their efforts upon the more important and pretentious ones. This brings them into active competition with all the coin collectors of the country, and, so far as prices are concerned, they are there completely at the mercy of the ever watchful manipulator of the sale and possible secret owner of the collection, who, with shrewd insight into the tastes and purchasing powers of each buyer, never desists from adding another Quarter or Dollar, until his victim collapses, or the highest fancy price has been reached.

The present catalogue is placed, free of charge, in the hands of every collector known to me; if no longer interested in the subject, kindly pass it over to some live numismatist; but if still with us, look over each page with care, and send me or some other reliable dealer your list of wants, placing upon each piece whatever you would be glad to pay any one at private purchase, and you will no doubt be both surprised and pleased at the satisfactory results.

Unless otherwise described, every coin in this catalogue is guaranteed original and authentic.
